

ISRS held a seminar on methods for assessing the development of the banking system

On March 28 this year at the Institute for Strategic and Regional studies under the President of the Republic of Uzbekistan, with the participation of analysts from the Central Bank, a training seminar was held on methods used in world practice for assessing the development of the banking system.

Particular attention was paid to discussing approaches to risk analysis, strategies for effective operation and financial stability of banks.

The seminar participants emphasized the importance of using this toolkit when conducting research work and preparing information and analytical materials.

Following the event, readiness was expressed for further exchange of views between ISRS and the Central Bank on issues of mutual interest.
