

President of Uzbekistan receives the head of Russia's Uralchem

On December 9, President of the Republic of Uzbekistan Shavkat Mirziyoyev received a member of the Board of Directors, General Director of Uralchem, Dmitry Mazepin.

The issues of developing mutually beneficial cooperation with the largest Russian producer of mineral fertilizers were considered.

The main attention was paid to the implementation of promising investment projects for the production of nitrogen, phosphorus and complex fertilizers with the development of the resource base.

An agreement was reached to establish interaction in the sphere of scientific and technical developments and training qualified personnel.
