That is why we need to find growth points in each mahalla, identify those responsible for their use, allocate the necessary funds and employ people. It is necessary to improve the supply of drinking water, electricity, roads, education and other conditions. 119 trillion UZS will be allocated for large and medium-sized projects in the region”, the President said.

The changes taking place in Chinaz district, unused opportunities were discussed at the meeting.

“In fact, there should be no unemployed in Chinaz district. The district is rich in land and hardworking people. There should be a culture in every house, on every street. You will achieve the result by working hard. We need to work together. If we want changes, we all must change our consciousness”, said Shavkat Mirziyoyev.
